

Celestina = "heavenly" in reference to the celestial skies above

Celestina is from the beautiful Island Puerto Rico. She's a part of the Taino Clan. The Tainos believe in a goddess by the name of Atabey. Atabey is also known as the Taino Supreme god. She's a fertility and water goddess (as well as an Earth Spirit). Pregnant women would pray to Atabey to ensure a safe childbirth. Celestina worshiped Atabey every day for the safety of her clan.

TAINO

GODDESS

One night Atabey came to Celestina in her dreams saying "I am Atabey for I am all that is wild and born in my domain, for I am the mother to storms and sea. I choose you my child to lead the tribe. You are the chosen one for I am giving you the power of storm and sea." Celestina had woken

And made everyone in the tribe gather she said "I have a message from Atabey." Everyone was quiet.

"Atabey appeared to me last night." "Atabey said to me that I am the Tribes leader." Everyone started whispering. "She gave me the power of storm and sea." Celestine made the sky dark and separated the water. "I am your leader and I will lead you to safety."

The sky cleared and the sea was calm. The next day there was no food to be found anywhere. The people cried of hunger. They came to Celestine asking what she they do. Celestine then asked Atabey. Celestine did what she was told and took the tribe thru the sea and fished. ~~She~~ Celestine had split the sea for the people were in awe. They caught food enough for the next 3 months and they feast and thanked Celestine saving the day.
