

National Center on Improving Literacy

Your source for improving outcomes for students with literacy-related disabilities, including dyslexia.

About Us

The National Center on Improving Literacy (NCIL), operated by Boston University's Wheelock College of Education and Human Development with funding from the United States Department of Education, is a partnership among literacy experts, university researchers, and technical assistance providers from the University of Oregon, Florida State University, and RMC Research Corporation.

Our Mission

- To increase access to, and use of, evidence-based approaches to screen, identify, and teach students with literacy-related disabilities, including dyslexia.
- To build individual and organizational capacity to assess students' literacy-related skill, identify students with disabilities or those at risk of disabilities, and fully implement evidence-based literacy programs and professional development.

Parents & Families

Help your child read and write with practical ideas and strategies based on what works.

Schools & Districts

Find evidence based approaches and effective professional development to screen, identify, and teach students with literacy related difficulties, including dyslexia.

State Agencies

Develop and implement state and local structures and procedures to address challenges that students with literacy related difficulties face in learning to read and write.
