Three Steps to Support Language Development

1. TALK

Talk to your child about everyday life.

I think we should have macaroni for dinner. Can you think of a vegetable we can have with our dinner?

Look at that big sign with an arrow on it. What do you think it means?

2. LISTEN

Listen and repeat back what you hear your child say.

I'm glad you thought recess was fun today.

It sounds like you didn't like your hot lunch.

3. ASK

Ask your child questions that can't be answered with just one word.

What books did you read in school today?

Can you teach me how to play this game?
