

Route to Reading

# Repair as Needed

Difficulties can be spotted early, so please speak to your child's teacher or pediatrician if you have concerns about his or her progress at school.

## Questions to ask your child's school:

What evidence-based literacy instruction and interventions are used?

What types of support are offered to my child if he or she is struggling to read or write?

What accommodations does the school provide to help my child read or write?

The research reported here is funded by a grant to the National Center on Improving Literacy from the Office of Elementary and Secondary Education, in partnership with the Office of Special Education Programs (Award #: S283D160003).
